Guidance for GNETS Placements.docx

Nakeba.

These are the final documents. Can you have these printed for the participants of the collaborative?

Or would you prefer that we give out the ones that say "DRAFT?" I will prepare a presentation.

Pat Wolf

Subject: FW: Upcoming LEA Collaborative Meeting for GNETS -- December 7th

Good morning directors,

Please see the email below that was sent out by Matt Jones. As I transition into my new role, Vicki Cleveland has been approved to be the interim support person for GNETS. She will provide supplemental support until we advertise and fill the position with a GNETS Program Manager. Please welcome her as she supports our work in a supplemental capacity. I will continue to be a significant part of the work until there is a full-time person. Thank you for all you do to support your students. I'll See you at the directors meeting in Savannah.

By the way, there was a change in the rooms. Matt's original email has the exhibit hall and it was changed to the centreplex. This invite has the new room assignment.

Subject: Upcoming LEA Collaborative Meeting for GNETS -- December 7th

Good morning,

Attached is an agenda for a 2018 Fall LEA Collaborative meeting held on December 7, 2017 from 9:30 am – 1:00 pm at the Marriott Macon City Center (Exhibit Hall; 240 Coliseum Drive, Macon, GA 31217).

The purpose of this meeting is to:

- Introduce the guidance for the GNETS rule,
- Share a streamlined process with LEAs when they are considering students for GNETS services, and
- Engage GNETS and LEAs in a discussion to plan 5 regional Parent University sessions across the state.

 Note: The Parent University sessions (dates and times TBA) will be geared towards helping parents understand how to work with children presenting behavioral challenges, as well as what resources and

supports are available in the schools, community and GNETS. Several cross-divisional teams from GaDOE as well as other agencies will be supporting these regional sessions.

LEA Collaborative Registration: https://form.jotform.com/72845535029158

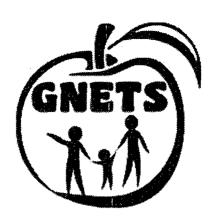

Questions: If you have any questions related to the logistics of this meeting, please contact Vickie Cleveland by email at vcleveland@doe.k12.ga.us or by phone at (404) 232-7991.

Recent good news regarding ACT, SAT, graduation rate, and CCRPI score increases is a testament to your leadership and commitment to our children. Superintendent Woods deeply appreciates your efforts.

Best,

Matt Jones Chief of Staff Georgia Department of Education

GNETS Consideration for Services Flow Chart Georgia Network for Educational and Therapeutic Support

A student currently being served in SPED has behavior problems at their school and it is believed GNETS may be an option. (GNETS services are only for students served in SPED). School personnel contacts Special Education Director or designee with concerns (outlining frequency, duration and intensity of behavior problems). A check list of "Guiding Questions" is completed to determine whether more work is needed at the school level or to proceed with GNETS involvement.

GNETS Consultation

Services that are considered GNETS Consultation may include a request for FBA coaching, classroom observation and written feedback, or records review with feedback (complete the "Request for GNETS Consultation" form).

FBA Coaching

Assists with identifying target behaviors & setting up data collection; Assists with review of data after it is collected by school personnel; Assists with data analysis; Assists with writing a draft BIP

1

Direct Consultation GNETS staff

GNETS staff
observes student
at school and
looks at records;
A written report
with
recommendations
is provided to
Sped Dir,
Principal, and/or
teacher; A verbal
conference is
held, if requested.

+

Indirect Consultation

GNETS staff looks at records (psychological, eligibility, BIP, IEP) & gives ideas verbally.

GNETS Consideration for Services

Page 7 of 13

According to SBOE 160-4-7-.15, if the IEP team recommends GNETS services, the following documents must exist in the student's records:

- ✓ Current IEP
- ✓ FBA/BIP administered within the past year
- ✓ Comprehensive reevaluation within last 3 years

IEP meeting will be held inviting GNETS Director or Designee. It is best practices to include the following documents to assist with immediate service delivery.

- ✓ Completed Guiding Questions Checklist
- ✓ School History
- ✓ GNETS consultation documents

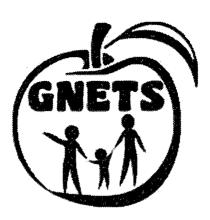

Continuum of GNETS Service Delivery and Environments

The IEP team must determine that GNETS services are necessary for students to receive FAPE. Removal from the general education setting will occur only when the nature or severity of students' social, emotional and/or behavioral challenges are such that education in a general education setting with the use of supplementary services and intensive individualized interventions cannot be achieved.

- The GNETS continuum of services by environment may be found on page 3-4 of the GNETS State Board Rule 160-4-7-.15.
- Move-Ins / Transfers: For students who move in from GNETS or similar
 program in another state or who are released from a long-term
 hospitalization or residential treatment should have an IEP meeting to amend
 the IEP if necessary.

Guiding Questions for Consideration of GNETS Services

1. Is the student currently served in Special Education?

Is the student currently being served in special education?

YES NO

If the answer is "NO" then GNETS is not an appropriate consideration at this time. Staff may want to consider convening the RTI or SST team to address the next steps for this student.

2. Does this student have a Behavior Intervention Plan (BIP) based upon an appropriate Functional Behavior Assessment (FBA) completed within the past year?

•	Has an FBA been completed on this student within the past year?	YES	NO
•	Was information from the FBA used to write the BIP?	YES	NO
•	Does the BIP appropriately address the current target behaviors of concern?	YES	NO
•	Is the current BIP being implemented with fidelity across all settings in the school?	YES	NO
	Is there data to support RIP implementation as well as its impact on the target behavior?	YES	NO

If the answer to any of these questions is "NO" or "uncertain," then the BIP should be revised (or implemented appropriately). An FBA or new FBA may also need to be considered and completed (if deemed necessary). Once the BIP is revised or determined that it needs to be implemented as written, then data on effectiveness and implementation fidelity should be kept and a meeting date should be rescheduled to review outcomes.

3. Have any Evidenced Based Interventions been implemented with this student?

•	Have Evidence-Based Interventions (EBI) been implemented with fidelity with this student?	YES	NO	
•	Has data been kept on the EBI's impact with this student?	YES	NO	
•	Does the data clearly show that the EBI is NOT positively impacting the student's behavior?	YES	NO	
•	Have the interventions been implemented for a significant length of time to demonstrate			
	their effectiveness or lack thereof?	YES	NO	

If the answer to any of these questions is "no" or "uncertain," then the team should determine an appropriate EBI to implement with this student. They should review the steps involved in the intervention and work to ensure that all members of the student's team involved in implementing the intervention know how to implement with fidelity. A data collection procedure and method for ongoing fidelity checks should be put in place. A schedule regarding the length of time for the EBI to be implemented should be set and the team should meet to review data related to the effectiveness of the intervention at the end of that time.

4. What is/are this student's current placement and/or circumstances?

- Have all options on the special education continuum been considered and/or tried for this student? (If the answer to this
 question is "no" then the special education committee may want to convene to consider other placement options, segment
 changes, delivery models, etc. to ensure the student is being served least restrictively.

 YES NO
- Is the most current psychological evaluation still relevant?
 Has a comprehensive evaluation been completed within the past 3 years?
 YES NO
- Some additional factors that might need to be discussed/explored:
 - Has the student been explicitly taught the expectations or skill steps? (We should not assume that a student has
 the knowledge or skills to implement appropriate behaviors we have to teach them first).

 YES
 NO

Guiding Questions for Consideration of GNETS Services

Page 2

0	Has staff tried other preventative measures such as moving the child's desk in the classroom (ne	earer or a	away from
	the teacher or others, the door, etc.), adjusting his/her schedule, or making contact with the pa	rent, etc	?
		YES	NO
0	Are there medication issues for this child? (ie. Is he/she supposed to be taking medication but is	not or a	re there
	concerns with consistency of it being administered? Are there concerns about dosages, etc? (If t	here are	concerns
	in this area, school staff may want to consider having the school nurse involved to complete a be	ehavior o	hecklist,
	contact the parent, or contact the doctor's office).	YES	NO
0	Are there skill deficits in academics that might lead to avoidance behaviors?	YES	NO
0	If there are known skill deficits, has related remediation been provided the student?	YES	NO
0	Is there progress monitoring data that indicates the remediation has had a positive impact on t	he stude	nt's skill
	development /performance?	YES	NO
0	Does the student receive a higher ratio of positive versus negative feedback from his/her teacher	ers on a d	onsistent
	basis?	YES	NO
0	Are there changes or concerns in the home setting or has the student experienced any recent lo	sses or t	rauma in

Once all of these questions have been answered, the team needs to determine whether or not there are some areas that need to be addressed prior to moving forward with a request for GNETS services. Responses to the guiding questions above, should help guide the development of an action plan to address any data collection, school-based supports, or placement options that have not been used before requesting GNETS services.

5. Is there documentation that indicates evidence of:

their life?

•	Annual IEP Reviews?	YES	NO
•	IEP goals that address the behavior(s) that necessitate GNETS services have been devel	oped ar	ıd
	included in the IEP.	YES	NO
•	Progress monitoring data aligned with IEP goals?	YES	NO
•	Progress monitoring data aligned with BIP target behavior(s) and replacement skills?	YES	NO
•	Documentation indicating prior services were delivered in a less restrictive environment	it and th	ie
	student's inability to receive FAPE in that environment?	YES	NO
•	Data that supports the need for GNETS services is included in the IEP.	YES	NO
•	GNETS services are provided in the least restrictive educational placement.	YES	NO

- The information related to the guiding questions above should be clearly documented within the present level of performance section of the student's IEP. (This may require an amendment of the IEP.)
- IEP goals should be developed and/or revised to include the **behaviors** that necessitate placement in the GNETS Program and the data that supports the placement decision as well as the criteria that will be considered to insure that the student is served in the least restrictive educational placement.

NO

YES
